Japan Joins Great Britain in Upholding Monarchy—Want U. S. to come In

DANGEROUS TO FIGHTERS

Revolutionary Leaders Assert Loan to Yuan Shih Kai Will Jeopardize Lives

PEKIN, Dec. 21.—Premier Yuan Shih Kai today gave his answer to those who are aiming to transform China into a republic. In an official statement he declared without qualification that he refused to accept a republic.

At the Shanghai peace conference yesterday Wu Ting Fung, foreign minister in the revolutionary provisional cabinet, spoke strongly in favor of a republic, and later Tang Shao Yi said he was convinced that the abdication of the emperor and the establishment of a republic was the only thing that would satisfy the people. At the same time he expressed doubt whether it would be possible to persuade Yuan Shih Kai to abandon his plan for a limited monarchy. It is believed here that Yuan Shih Kai means what he says and will uphold the monarchy.

A new situation has arisen. Great Britain, which has been supporting the premier's monarchical program for several weeks, is now strengthened by Japan and is endeavoring to obtain the support of the United States and other countries. Great Britain believes the separation of the dependencies—Manchuria, Mongolia, and Tibet, and the serious disintegration of China proper would result from the establishment of a republic, whereas the republicans already have obtained in a material way everything they desired. Only the name of the monarchy is left.

U. S. Said to Favor Plan.

It is stated that the American group, not the American League, is in favor of Yuan Shih Kai's plan, with two or, if not three, of the others forming a "nation group" of financiers to lend Yuan Shih Kai's government money. Negotiations to this end have been proceeding for some days.

It was at Great Britain's initiative that the six powers urged the Shanghai peace conference to reach an agreement. Now Great Britain is endeavoring to persuade the rebels to come to terms. It is pointed out that British interference is not directed against

(Continued on Page Two.)

Old Relics Found by Prospector Who Has Narrow Escape

Coins and old papers that were evidently buried by prospectors on the Pikes Peak range more than 30 years ago were uncovered Thursday, Decem-

ber 14, by Frederick Parker, an old

gold-seeker at a point midway be-

tween Woodland Park and Divide.

The relics of the past were buried in an old tin can a foot underneath the surface.

Parker's discovery includes a 25-cent piece dated 1881. Then there were two "millions for defense and not one cent for tribute" pennies, dated 1882. A one-dollar silver piece, minted in 1880, was also in the can.

The papers were copies of the Den-

ver Tribune of October 15, 1880, and the Rocky Mountain News of Sunday, October 17, 1880. They were neatly folded and placed in the bottom of the can.

"I thought I had a big find at first," Parker said yesterday. "I was scratching around in the rock and dirt with my pick, when I struck the top of the can. I first thought of buried treasure, and was somewhat disappointed when I found out what the can contained. It is my belief that prospectors hid the can in the moun-

tain site in the winter of 1880, or possibly in 1881."

There are items in the two papers that prove of great interest to Mr. Parker. One refers to the Ute uprising, which he helped to quell. Another item is clipped from the Colo-

rado Springs Gazette telling of Sergeant O'Keefe's attempt to ascend

Pikes Peak on his mule, Balaam. Ref-

erence is made of how Sergeant O'Keefe came across about 70 head

or deer, that had evidently been driven

from the mountain by the snow storm.

Sergeant O'Keefe, so the clipping reads, had nothing but a small re-

volver with him, but he killed about a dozen of the deer.

Mr. Parker, who is about 60 years

old, is staying at his home, 513 East

Pikes Peak Avenue, until the weather

permits another expedition to the mountains. He says he came near freezing to death a week ago last night, before reaching a point of safety. He left his temporary camp on the slope of Pikes Peak and walked to the top, where he found refuge.

The two celebrated the day together

with a dinner in Mrs. Tomaszewski's

home. Neighbors, who were told the

story, dropped in during the afternoon

and evening and offered congratulations.

POSTOFFICE CLERKS AND CARRIERS WORK SUNDAY

Crush of Holiday Matter in Mails Makes Necessary an Order by Postmaster General

WASHINGTON, Dec. 21.—Although four days before Christmas, the crush of holiday matter in the mails is so great that Postmaster General Hitchcock today issued orders that postoffice clerks and carriers must work on Sunday in the distribution of letters and packages.

Instructions have been given to the postmasters of the larger cities to care for the prompt distribution of mail matter and to this end authority is given for hiring workers and tax.

The present indications are that the pressure of Christmas mail this year will be greater than ever before in the history of the postoffice department.

Instructions have been given to the postmasters of the larger cities to care for the prompt distribution of mail matter and to this end authority is given for hiring workers and tax.

"She may improve and be able to make the journey," said the Rev. Mr. Hickey tonight, "but the shock of their confessed guilt and the condemnation they have received has broken her spirit and it will be a wonder if she survives long."

FORTY-POUND GOBBLER REACHES WHITE HOUSE

WASHINGTON, Dec. 21.—A turkey from Rhode Island intended for the president's Christmas day dinner arrived at the White house today. It weighed 40 pounds.

It is the belief that Childers will return to this city. Armed officers were stationed in his room last night to apprehend him should he attempt to find refuge from the cold.

DENVER MERCHANTS MISSING

Relatives Fear They Are Victims of
Murderous Footpads, as Each
Carried Much Money

DENVER, Dec. 21.—Two merchants of Denver, Frank Bulling and John T. Goan, have disappeared recently, under peculiar circumstances, without any known reason for their leaving. Each had a large sum of money with him when last seen, and because of the numerous recent holdups in the city in which robbers have severely beaten their victims the relatives of the two men fear they may have been murdered. The police have been unable to get any clew to the whereabouts of either man.

Bulling left his home the night of December 6. Goan was last seen Tuesday, December 19.

U. S. IS KEEPING EYES ON PANAMA

WASHINGTON, Dec. 21.—The state department is keeping a close watch on the campaign now in progress in Panama between the friends of President Roosevelt, a candidate for reelection at the expiration of his term next year, and the partisans of Belisario Porras, who was summarily removed from office as minister of Panama in Washington recently, by Assassins.

Advices to the department indicate that considerable feeling has developed, and that Porras, who has the support of two of the newspapers published on the isthmus is making a strong fight. While there have been some street rows, there has been no actual outbreak of hostilities, and it is believed here that there will not be, for the reason that the considerable force of American troops and marines on the canal zone would be called into service immediately if anything like a state of anarchy should exist.

In a recent message to congress, President Taft conveyed the assurance to the Panamanians that there was no disposition on the part of the United States to intervene in their affairs so long as they lived up to the constitutional guarantees. These involve a free election and a fair count.

MATION GROUP

(Continued from Page One)
China's interests, but against the sentimental idea in such cases where the practical interests of the entire nation are being jeopardized.

The extension of the armistice for 10 days, to which the revolutionists have agreed, has given some hope, but unless the revolutionists accept Premier Yuan's offer, the only alternative is continuation of the conflict with possible division of the country, the dependencies rallying around the northern empire.

The premier has sent 3,000 troops of the Twentieth division to Chiu Wang Tao, on the coast of Pe Chili, with the object of preventing republican troops from assembling in the north. Precautions are also being taken below Tien Tsin.

Might Jeopardize Foreigners:

SHANGHAI, Dec. 21.—The revolutionary leaders here assert that if Yuan Shih Kai persists in his refusal to accept a republic, the powers giving him their support would be regarded as the enemies of China, and the lives of all foreigners in China would be jeopardized.

It is believed among the revolutionists that Great Britain is supporting the monarchy solely because of the dangerous example that would be set for India should China become a republic.

Dr. Sun Yat Sen, the reform leader, is due to arrive here in a few days, and it is believed he will assume the leadership of the south.

— reinforcements of well armed and well trained troops are arriving from Canton.

LONDON, Dec. 22.—The Daily Telegraph's Shanghai correspondent fears that the crisis will assume an antiforeign character. He says that the revolutionary leaders and military commanders are hinting at antiforeign assistance to the imperial government in the way of loans.

ARE RECOMMENDING KELLEY

Lawyers and State Officials Send Telegrams Asking President to Make Jim District Attorney

DENVER, Dec. 21.—Leading members of the Denver bar and state officials are sending telegrams to President Taft recommending Harry E. Kelley to fill the position left vacant by the resignation of United States District Attorney Thomas Ward, Jr. The recommendation was first made by Senator Guggenheim.

Gov. John F. Shafroth stated this morning that he intended to write to President Taft expressing his opinion that Mr. Kelley would be a good man for the district attorney's office.

TO REMOVE \$500 LIMIT POSTAL BANKS DEPOSITS

WASHINGTON, Dec. 21.—The \$500 limit on postal savings banks deposits will be removed in the near future, according to statements at the post office department today. This limit already has been reached by many depositors, and the bank trustees have been urged to permit deposits without any limitation whatever as to the amount.

Postmaster General Hitchcock today received petitions from several new banks in various parts of the country, requesting the trustees to increase the limit indefinitely.

REYES ELUDES SCOUTS

MONTREY, Mex., Dec. 21.—Army scouts appear to have lost the trail of General Reyes and his little staff. In the last 24 hours no definite reports regarding his whereabouts have been received at army headquarters. It is conceded he must yet be in the neighborhood of the western mountains, state line.

Losing the track has caused no uneasiness among army officers who profess they would not be surprised should Reyes voluntarily surrender, realizing his efforts to incite a general rebellion have failed.

Five hundred troops are now riding the plains and hills seeking to pick up the trail.

FRANCE SWEEP-BY STORM

PARIS, Dec. 21.—The eastern districts of France were swept today by a violent tempest of rain and wind causing much damage to property and fishing craft. A number of fishermen were drawn.

The writer continues:

"Imagine our emotion. We sought a symbol and we found France herself—a pretty young woman full of grace, vivacity and courage, a young French woman, with a frank and loyal regard, a young sweet wif in a replica of our Clotilde, Hamilton, Blanche and Jeanie. Her hair is arranged like a hat, and her attire is a carriage. We sought a French thought and we found an idea of France herself."

The bust will be mounted on a marble base, with a suitable representation of the American and French flags. It will be mounted by a special delegation of Frenchmen, including members of the French-American committee.

A model of the bust will be displayed in Paris. It will be a duplicate of Rodin's work.

SAYS HIGH SCHOOLS OF COUNTRY DISSATISFACTORY

Yale Professor Gifford Wm. Features

Is That No One Desires to Care
for the Work

LOS ANGELES, Dec. 21.—That the high school system of the state was a failure in all its signs, while that in the west, and a few more successful, more progressive, and achieved more credit than the system of the nation, was the chief claim of Prof. Herbert C. Moore, head of the department of education at Yale, who spoke before the Los Angeles Teachers in State today.

Prof. Herbert C. Moore said the

Thimk/Dynamite Plot Originated in Los Angeles

INDIANAPOLIS, Dec. 21.—Claude E. Myers, chief of police of Tiffin, Ohio, 114 pounds of dynamite and other explosives were found hidden in a bush in the dunes after the arrest of John J. McNamara in Indianapolis April 28, last, was the chief witness before the federal grand jury in the investigation of the alleged conspiracy today. He was among those from whom it was said the investigators expected to learn facts as to who, besides the McNamaras, and Orville McManamy, were implicated particularly in the explosions in Pennsylvania, Ohio and Indiana to carry out which the stores of explosives at Tiffin were used as a base of supplies.

Information was said to have been obtained by District Attorney Charles W. Miller that the explosions were directed from McNamara's headquarters in Indianapolis, although the suggestion for the destruction of property erected by firms employing nonunion men came originally from the city where the explosions afterwards took place.

Prosecutors Gather Information.
In connection with Chief Myers' appearance it was learned that the district attorney's office had accumulated important data relative to local conditions in a score of cities where structures had been blown up within the last five years.

County Prosecutor Baker also was before the grand jury. He was summoned because of his work as prosecutor in conducting before the county grand jury an investigation of explosions in Indianapolis.

Baker, earlier in the day, had been fined \$50 for contempt, because he interrupted a murder trial in the county court by dragging in a detective who was working on the dynamite investigation and whom Baker said was "shadowing" him.

"Seven days' work by the federal grand jury has developed the fact that evidence is more voluminous and the number of witnesses to be called from distant cities is greater than was expected. The investigation temporarily will stop tomorrow when the jurors will adjourn until January 2. It will then require a month to complete the inquiry.

Labor Leader Summoned.

LOS ANGELES, Dec. 21.—E. A. Clancy, the San Francisco labor leader, who answered a subpoena to appear before the federal grand jury which is investigating the alleged nation-wide dynamite conspiracy, said today that he had been told the jury would not call him until he had first talked with the government prosecutor. Apparently, Clancy rejected this suggestion for he left the federal building immediately afterward.

His statement, however, caused many conjectures as to what he meant.

J. E. Munsey, an official of the Lake City Iron Workers union, appeared before the jury today but did not complete his testimony.

Another witness was W. E. Beckman, assistant agent of the American Express company, who took books into the grand jury room. It was supposed his testimony relates to shipments of explosives concealed under false descriptions in bills of lading.

FRANCE GIVES

(Continued from Page One)
project of a French-American extending from Canada to Louisiana, on which, later, the great American republic was developed, was admirably suited to express the warmth of French affection, the appeal will say.

Gabriel Ilanotau will relate to you in the larger the interesting story of how Auguste Rodin's La France happened to be selected. He says the committee was at a loss to know just what offering to send to America, which would harmonize with the imposing architecture of the Champ de Mars monument. It finally decided that the offering must be a true jewel.

The members visited the study of Auguste Rodin because he is popular in America and walked through the various salons. Suddenly they discovered the bronze bust La France.

The writer continues:

"Imagine our emotion. We sought a symbol and we found France herself—a pretty young woman full of grace, vivacity and courage, a young French woman, with a frank and loyal regard, a young sweet wife in a replica of our Clotilde, Hamilton, Blanche and Jeanie. Her hair is arranged like a hat, and her attire is a carriage. We sought a French thought and we found an idea of France herself."

The bust will be mounted on a marble base, with a suitable representation of the American and French flags. It will be mounted by a special delegation of Frenchmen, including members of the French-American committee.

A model of the bust will be displayed in Paris. It will be a duplicate of Rodin's work.

OMAHA POLITICS IN HIGH FOR PARDON**Declared Civic Federation After Power by Securing Shercliff's Release**

DENVER, Dec. 21.—After an all-day hearing on the application of Edward L. Morris, alias Shercliff, for a pardon from the state penitentiary, where he is serving a 25-year sentence for the murder of John Walsh at Leadville, Colo., in 1893, the state board of pardons tonight adjourned without being able to reach a decision. No decision will be reached, it is now said, until after the holidays.

Morris based his plea on the ground that his conviction was the direct result of a political fight in Omaha, and in the hearing before the board of pardons the history of the fight between Thomas Dennison, a prominent politician, and the civic federation of that was threshed out.

Among those appearing before the pardons board were: Thomas Dennison, whose testimony against Morris, his erstwhile pal, resulted in Morris' conviction of murder; Elmer D. Thomas, attorney for the Civic federation of Omaha, who said that Morris was railroaded to prison by Dennison because Morris had helped to clear out the Dennison ring in Omaha politics; W. J. Connell, former Nebraska congressman and attorney for Omaha's business interests, who said the fight for Morris' release made by the Civic federation was only a fight to discredit Dennison so that the Civic federation could hold its power in Omaha.

Many Affidavits Introduced.

Affidavits galore were introduced to show that Dennison had been a gambler all his life and had been a "fence" for thieves, and that Morris' criminal record was one of the most notorious in the United States.

During the hearing the statement was made that the Indiana state authorities are waiting to rearrest Morris for an alleged jewel robbery in Hammond, Ind., in 1897, but later an affidavit from Morris and another from the penitentiary warden showed that Morris had never been in Indiana and the Indiana charge was trumped up by Dennison to keep Morris in prison.

"Shercliff wouldn't hesitate to kill me or harm my family. He would kill District Attorney Hogan and everybody else who brought him to the bar of justice," declared Thomas Dennison, the Republican "boss" of Omaha, in the governor's office today, before the state board of pardons took up the application for pardon filed by the convict known all over the country as Frank Shercliff, but registered at the Cancer City penitentiary as Sherman W. Morris.

TAKES ADVANTAGE OF TRAIN WRECK TO ROB PASSENGERS

WASHINGTON, Dec. 21.—President Taft sent another of his promised series of messages to Congress today. This time he dealt with currency reform, Panama canal tolls and various governmental questions.

On the subject of currency reform and in connection with the forthcoming report to Congress of the monetary commission, President Taft said it was exceedingly fortunate that the wise and undisturbed policy of maintaining unchanged the main features of our banking system rendered it almost impossible to introduce a central bank. He gave his approval to the proposed national reserve association.

As in the management of this association the president said this was mainly bankers' work and the banks could be trusted better than anybody else to conduct it. However he urged that some form of government supervision and ultimate control should prevail and that the currency reform should not be made a political issue.

"And I also trust that the new legislation will carefully and completely protect and assure the individuality and the independence of each bank to the end that any tendency there may ever be toward a consolidation of the money or banking powers of the nation shall be defeated," said the president.

The immediate establishment of a rural parcels post was urged. The president took the position that the post would not destroy the business of the country store keeper.

"Instead of doing this," he said, "I think the change will greatly increase business for the benefit of all. The reduction in the cost of living it will bring about ought to make its commission certain."

On the Panama canal the president dealt at length with the question of whether American shipping should pay tolls.

Mrs. Poole to Relieve.

I am very confident that the United States has the power to relieve from the payment of tolls any part of our shipping that Congress deems wise," said the president. "We want control of United States money that builds it. We have the right to charge tolls for its use. These tolls must be the same to everyone, but when we are dealing with our own ships the practice of many governments subsidizing their own merchant vessels is well established in general that a subsidy equal to the tolls or an equivalent remission of tolls cannot be held to be a discrimination in the use of the canal."

Among the president's recommendations were the following:

An immediate increase of 2,000 men in the enlisted strength of the navy.

Abolition of the smaller navy yards.

Contributory pension system for government employees.

The elimination of all local offices from politics.

Increased appropriation for the completion of the river and harbor improvements along the Mississippi, the Ohio and the Missouri rivers.

An extension of the term of service of the special board of engineers on the waterway from the lakes to the gulf.

Power in the president to remove clerks of federal courts for cause.

Payment of the French arbitration judgment.

Employers liability and workers' compensation legislation called to the attention of Congress.

Friday and Saturday we will have on special sale for Christmas gifts, 216 pairs of high-cut Street Boots, gun metal and patent (like cut).

\$207,000,000, EXCLUSIVE OF MINING, TO BE GIVEN SHAREHOLDERS FOR XMAS

NEW YORK, Dec. 21.—Stockholders and bondholders of the United States will have a great deal to be happy over in the first month of the new year.

The year 1912 will start off with disbursements by the corporations of the United States to holders of their stocks and bonds, exclusive of mining corporations, of \$207,000,000.

This will be at the rate of more than \$2 to every man, woman and child in the United States.

This disbursement, with the Christmas bonus, will make money easy during the first few months of the year, and will undoubtedly do much toward causing a revival of trade in all branches.

Not only are banks and trust companies and corporations making large distributions, but private firms are doing the same.

The International Harvester company has announced an appropriation of \$500,000 as a bonus to be distributed

among 2,000 employees of the company. Officers of the corporation declare that the gift is "in no sense a Christmas present," but a sharing of the year's profits of the organization among worthy workers.

Dividends for the month which will exceed \$1,000,000 are:

Canadian Pacific, \$4,500,000.

Southern Pacific, \$4,000,000.

New York Central, \$2,791,125.

Chicago & Northwestern common, \$2,276,928.

Swift & Co., \$1,312,500.

American Tobacco preferred, \$1,180,-

338.

United Gas Improvement, \$1,108,533.

International Harvester common,

\$1,000,000.

CHICAGO, Dec. 21.—A half million dollars will be the Christmas gift of the Crate company this year to its employees. This is the thirteenth year the company has given its workers the advantage of the profit sharing plan.

A gift will be made to each employee in Chicago and 41 branch houses of 10 per cent of their annual salary.

Denounces System That Permits Manufacturing in New York Tenements

NEW YORK, Dec. 21.—The system of state licenses that permit manufacturing in New York tenements, is denounced in a report to the state factory commission by Lillian B. Wald, head of an east side settlement. She declares that from one to 40 families in each of the 13,000 tenements in Manhattan and the Bronx are engaged in manufacturing under state license.

"These people," explains Miss Wald, "operate to deprecate wages in factories. The tenement trades are parasitic and should be abolished. Many children have to work to support their parents. The manufacturer enjoys a saving by sending work to the tenement regardless of the fact that it keeps children from school and destroys future good citizens."

On the right of the city to inspect the present boiler, the attorney general delivers the city hall a body blow, saying:

"It is our opinion, however, that so long as the capitol building is in charge of and under the control of the state board of capitol managers, the city boiler inspector has nothing whatever to do with the boilers in the building."

SALE RED CROSS SEALS FAR BELOW LAST YEAR

Public Urged to Aid Campaign for Funds Local Institution Will Get Over One-Half Proceeds

The sale of Red Cross Christmas Stamps, for the benefit of the District Nurse Association and for the fight against tuberculosis, is below the standard of last year, according to those who have the sale of the stamps in charge.

It is believed that the shoppers unintentionally have overlooked the purchase of these little stamps, and as their sale means so much to the anti-tuberculosis fight, the leaders of the movement in this city ask that during the next two days the public invest a small part of their Christmas funds with them.

One-half of the proceeds from the sale of these stamps go to the Nurse association, which is badly in need of funds to carry on its work.

MAY DISPROVE THEORY

Press dispatches yesterday from Oregon City, Ore., telling of the arrest of Nathan B. Harvey, suspected of being implicated in the numerous murders in the far northwest last summer, tend to disprove the theory that the crimes in Washington, Oregon, Colorado Springs, Illinois and Kansas, all presumably done with an ax, were the acts of one person.

Harvey, who is under arrest on the coast, is thought to be mentally unbalanced, and the authorities there believe he can throw some light on the murder of the Hill family, four in number, in Portland last June. As yet, however, nothing has been learned that connects Harvey with the crime. The murders on the western coast at Rainier, Wash., and Portland, Ore., were similar to the Wayne-Burnham crime in this city last September; all of the crimes being committed on a Sunday night and the victims, in each instance, being slain with an ax while they slept. Local authorities stated yesterday that there were no developments as far as the Wayne-Burnham murders in this city were concerned.

Harvey is 55 years old and said to be worth about \$100,000. The history of the family for the last quarter of a century has contained many tragic features. The father, it is said, was killed soon after he had嫁给了 his property to his sons, Nathan and Daniel; the latter subsequently killed his mother and committed suicide, while a third brother was drowned under peculiar circumstances. About 18 years ago Mamie Welch, 16 years old, was found dead on property owned by Nathan Harvey, and the murderer was never discovered.

SUSPECTS ARRESTED

An officer from Pueblo is expected here tomorrow or Sunday to take Walter Witherspoon and F. A. Sawyer to that city, where they will be investigated in connection with a holdup that occurred in a Pueblo saloon Tuesday night. The men were arrested by the local police on descriptions of the holdups sent out by the Pueblo authorities.

RIO GRANDE FIREMEN

ASK INCREASE IN PAY

Claim Advance Along With Other Employees. About 700 Affected—No Strike Is Contemplated

The firemen of the Denver and Rio Grande railroad have presented the officials of the company at Denver with a demand for a 10 per cent increase in wages. The demand was placed in the hands of Assistant General Manager W. S. Martin, who notified the committee that he will give their request his immediate consideration.

T. W. Rockwell of Pueblo, general superintendent of the company's Colorado lines, spent yesterday in conference with Martin, discussing the demand. A. R. Phillips of Peoria, Ill., vice president of the Brotherhood of Locomotive Firemen and Engineers, is in Denver to supervise the negotiations and is assisted by R. W. Scott, chairman of the board of organization for the Rio Grande system.

The average scale of the Denver and Rio Grande firemen at present is \$2.94 daily. The firemen claim they are entitled to an increase along with other employees of the road, whose wages have been raised within the last year. There are approximately 700 firemen on the Rio Grande. Mr. Scott said yesterday that no strike or walkout is contemplated.

We have an unlimited supply of high grade cigars at 50c and \$1.00 per box. Be sure you get good ones. Hughes 13 N. Tejon.

22 WOMEN, SIX MEN AT COUNTY SCHOOL EXAMS

Under the direction of Mrs. Inez Lewis, county superintendent of schools, 28 took the examinations yesterday at the court house for prospective appointment to teaching positions in the county schools. Twenty-two women and six men took the examinations.

"There are no special features in connection with the examinations," said Mrs. Lewis yesterday, "except that many of those here had great difficulty in coming to Colorado Springs because of the heavy snow in the eastern part of the county. The results of the examinations will be announced as quickly as possible, probably within a week or 10 days."

The teachers taking the examinations yesterday will be in line for positions in any of the county schools, as well as those in Manitou. The schools of Colorado Springs and Colorado City are excepted.

DRY CLEANING

The Elite Laundry has added a department for that class of work.

APRIL IS GREAT SUCCESS

Many Students Attend Annual Mappa Pan Pan at Colorado College.

Doll Show Proves Feature.

A large crowd of students gathered in Cogswell theater at Bami last night to celebrate the annual Mappa Pan Fair of Colorado College, and all declared the affair one of the best ever held. President Slocum and Professor Motter made short talks to the students, speaking on a campaign for the college among the high school pupils in their home towns while on their holiday vacations. Dr. Murphy also made a short talk.

Lloyd Shaw, Max E. Butler and Glen Bowers staged a little comedy, "Box and Cox," which drew laugh after laugh from the audience. Refreshments consisting of hot chocolate and cake were served.

The annual doll show was held during the latter part of the evening. This show is prepared by the girls of the halls, who dress the dolls to send to the mission for Papeton for distribution among the children. A small administration is charged to see the dolls, and this also is sent to the mission. About 40 dolls were on display last night.

EMPLOYEES REMEMBERED

Several Thousand Dollars in Cash and Gifts to Be Distributed for Christmas.

Given by Local Clergy

Christmas gifts of one kind or another, for whatever reason, may be given to the employees of the Colorado Springs and Interocean Railway company. A check will be given to each employee of the railway. Taking the lead in the distribution of these presents are the Colorado dividends declared by the Colorado Springs and Interocean mining companies.

The Akton checks were issued last week. The Granite checks were sent out Wednesday, and the El Paso will pay today and tomorrow. The dividends declared by the three companies aggregate \$10,000.

The Perkins Gold Mining company, following an old custom, will give a \$100 gift to each employee at the 11th and 12th mines in Victor, at the mill in Colorado City and at the general offices here. The gift will amount to more than \$2,000.

A like gift, representing about \$1,000, is to be given to all distributed among the employees of the Colorado Springs and Interocean Railway company. A token will be given to the married men, and a box of cigars will be given the single men who are employees at the Union Cycle mill.

As in years past, the banks of the city will present gifts to the employes. The nature of the remembrances have not been announced, but they probably will be in cash.

PUEBLO MAN PRESIDENT

COLORADO MASTER PAINTERS

M. Duncan of Colorado Springs is Second Vice-Pueblo Chosen for 1912 Convention City

T. S. Serrin of Pueblo heads the Colorado Association of Master Painters and Decorators, being elected president at yesterday's meeting in the Alamo hotel. E. H. H. was the 1912 meeting.

Colorado Springs is not forsaken in the list of offices chosen. S. McMillan of this city is second vice president. George J. Murphy, Denver, is first vice-president. Arthur P. O'Connor of Denver was reelected secretary-treasurer.

The 1912 meeting will be held in July instead of the latter part of the year, as in the past. A desire on the part of the members to be home the week preceding Christmas is the reason for changing the date.

At yesterday's meeting a resolution was presented which asked that the members of the state association secure the approval of the organization before entering into contracts with labor union representatives or advancing any wage scale. The resolution did not pass.

The meeting closed yesterday afternoon, but the members stayed over until last night, when a "Dutch" lunch was served at the Alamo in honor of the supply men, who gave them a banquet the night preceding.

MANY CALENDARS OUT

Business concerns of Colorado Springs are giving a fine assortment of 1912 calendars to their customers. The Charles T. Fertig Insurance & Investment company is offering one with the picture of a St. Bernard dog reproduced from the painting of Cassius M. Coolidge. The painting, "Cherries," reproduced from James Arthur's work, appears on the calendars being distributed by the Colorado Savings bank.

Increase Noted in Flow in Cripple Creek Tunnel

Measurements taken December 16 of the Roosevelt deep drainage tunnel by Engineer T. R. Countryman are very encouraging, as they show an increase in the total flow of 280 gallons a minute over the last measurement taken two weeks before. Countryman estimates that the general water level is receding 10 feet a month. A total of 2,700 gallons of water is flowing out of the tunnel each minute. The full report reads:

Cripple Creek, Colo., Dec. 16, 1911. Total distance of breast from intermediate shaft 3,246 ft. Total distance of breast from intermediate shaft, Dec. 1, 3,138 ft.

Progress during first half of December 127 ft. Total progress 3,

A Real Xmas Present

You've been a good girl for something to give the family.

Cup! Has it!

Give them a Jewel Fireless Cooker. Watch the little man's face light up. Watch the "kiddies" grimace over the improved flavor of these dinner. Watch the coal and food and gas bill shrink.

A Jewel is worth a thousand dollars...well of tonic for old people. It cuts out cooking drudgery.

A box or \$10.00 and it will pay for itself in the money it has saved you. This is a cold, undeniable fact, proven by the experience of thousands of households.

Decide now on the JEWEL the JEWEL because it is the only all aluminum Fireless Cooker made, and you want the best.

Aluminum, you know, is the ideal cooking utensil material. It is rust proof, tarnish proof and trouble proof. It is most easily cleaned, and lasts for years.

The Jewel is here. It's a beauty. We don't want you to let us prove it.

Another Springs Boy Gains Great Musical Fame Abroad

Of the Americans who are gaining fame abroad, Archibald Sessions, born and raised in Colorado Springs, later of Los Angeles, Calif., now of Paris, France, is reaping his share of the rewards. He is attracting a great deal of attention both among the English-speaking people and with the Parisians, as organist of the American church, Rue de Berri, Paris.

He has held this position in the church for some time, and his work in concert as organist is widely praised. Recently he gave three concerts with the Touche orchestra, which is a signal honor.

After leaving Colorado Springs and

living in Paris for a few years, Sessions went to Europe, where he spent several years in study under the tutorage of a store in organ in the old country. Among his teachers was the Alexandre Guilmant.

The newspaper of Paris, a private one with the "Cocotte," in commenting upon a concert given at the Salle Gaveau, last spring, says:

"The concert given yesterday at Gaveau hall witnessed the greatest yet unmeasured success. Mr. Archibald Sessions, the well-known American organist, gave a very fine interpretation of the finale of the first Sonata of Beethoven, and other works."

The appreciation with which Americans and Parisians heard his recital with the Touche orchestra is shown in the comment of the Paris edition of the Daily Mail. It reads in part:

"There was a large gathering of Americans at the Concerts Touche to hear the first recital given this year by Mr. Archibald Sessions, the well-known Los Angeles organist, now at the American church, Rue de Berri, Paris. Mr. Sessions, who was accompanied by the Touche orchestra, was in splendid form, rendering Beethoven's difficult 'Fantasie Dialogue' in masterly fashion, and his second item, 'Kronenstuck' (Stagell), heard for the first time in Paris evoked the most enthusiastic appreciation. The orchestra was superb in Berlin's 'Symphonie Fantastique' and the Magic Flute overture (Mozart)."

FATHER HAGUS PROMOTED

Curate St. Mary's Church Here Will Take Charge of Catholic Institution in Cripple Creek

Father Hagus, who has been curate at St. Mary's church in this city for the past three years, has been appointed to the rectorate of the Catholic parish in Cripple Creek and will assume his new duties this morning. Bishop Matz of Denver has announced the appointment.

Father Hagus was ordained three years ago and came to this city immediately afterwards. He has been the spiritual director of the Holy Name society and is very popular among his parishioners.

DAY GENERALLY OBSERVED

Christmas will be observed generally throughout this section, especially among the public offices and business houses. The El Paso County Retail Grocers & Butchers association served notice yesterday that members of the association will close their stores all day Monday and New Year's day.

The city ticket offices of the different railroads will close tomorrow night at 6 o'clock and will not be reopened until 8 o'clock next Tuesday morning. The closing hours will be observed by the banks, city and county offices.

WEATHER MUCH COLDER

The mercury dropped almost to the zero point last night, with predictions that it would fall below that mark before morning. The maximum for the day was 14 degrees, and the minimum was 4 above, up to a late hour last night.

Societies and Clubs

The Tabor Extravaganza club will meet this afternoon with Mrs. William A. Davis, 1312 North Nevada avenue, for the annual holiday entertainment.

The excellent program given last evening by the pupils of the Buena Vista school, assisted by friends, will be repeated this evening at 7:45 o'clock. The proceeds will be used for the purchase of a curtain in the new auditorium and for charitable purposes.

The Christmas tree of the kindergarten department of the First Baptist church will be held at the church tomorrow afternoon at 2 o'clock.

A Christmas exercise with a real Christmas message to young and old, written by Dr. William Chalmers Cover of Chicago, will be given by the Sunday school of the Second Presbyterian church next Sunday at 5:30 p.m. The offering will be given to foreign missions. Everybody is cordially invited to attend.

WADING Mill Winfield, cashier and Marvin McClintock, bookkeeper at the Pacific National bank, were married at the home of Mr. and Mrs. J. L. Warren, 234 Park Columbia street, Wednesday night, the Rev. Samuel Davis officiating. Only a few intimate friends of the young couple were present.

The Sunday school of the First United Methodist church will hold its Christmas meeting at 7:30 o'clock this evening at 7:30 o'clock sharp.

The W. M. head of American Yacht will also be a Canada entomologist for the U.S. and his family at 2:45 p.m. at the hall this evening.

The X. Club of Victor will meet in G. A. R. hall this afternoon at 2:30 o'clock.

Mr. and Mrs. K. L. McLean, 2120 Main street, will have a housewarming this afternoon at 2:30 o'clock.

The W. M. head of Christ Episcopal Church will hold his regular service at 10 a.m. at the home of Mrs. Smith, 2120 Main street, Colorado City, 3:30 o'clock at 2:30 o'clock.

PLAYS.—See page 12. A CIRCUS will be given by the members of the El Paso party to the Elks Club at 8:30 p.m.

RICHESON WILL RECOVER

BOSTON, Dec. 21.—Kept under opiate throughout the day to deaden the pain from his self-inflicted wounds, the Rev. Clarence V. T. Richeson was unable to converse with his counsel, William A. Moore, in his cell today, so that his silence regarding his act remains unbroken.

Physicians said that barring the danger of blood poisoning, the prisoner would be physically able to appear in court January 15, in the stand trial for the alleged murder of Miss Avril Linnell.

Mr. Morse contends that the trial should be postponed, saying Richeson will not be physically fit to stand repeated interviews with counsel in preparation for the trial.

That the state intends to call the case on January 15 was shown today when a witness, Charles S. Pierce, of the Newton Theological seminary,

which Richeson attended, was arrested and held in bonds to appear on January 15.

CHARGE CITY OFFICIAL GAMBLED WITH EMPLOYEES

GRAND JUNCTION, Colo., Dec. 21.—D. W. Vedder, city water commissioner, has been charged with permitting gambling among the men employed on the city water system and in participating in the game himself. This party today started a movement which they claim will culminate in a petition for his recall.

The Socialists make a number of specific charges against Vedder which, it is said, have been worked up by F. B. Hutchinson, the Socialist chief of police.

In China they have capital punishment by proxy at times. A rich man is obliged to win his brother to take his place.

Lennox Explains Position in Regard to Printing Contract

John Lennox has issued the following statement in answer to resolutions recently passed by local labor organizations condemning the action of the control board of the Dry Farming congress in awarding a printing contract to a Denver firm:

In view of certain resolutions having been passed by the Federated Trades council November 18, 1911, and appearing in The Gazette November 20, and also by the Labor Congress, reported in the Gazette November 21, as taken by the Allied Printing Trades council relative to the printing of the Dry Farming Congress' 4th book, I desire as chairman of the local board of control of said congress and also in behalf of the committee having charge of the printing of this book, to present the facts and figures which governed our board and committee in their work and final action:

In former years and other cities where the congress has met and had this book printed, the cost has been about \$1,500. By a provision of the constitution the city entertaining the congress must meet this expense. Our board therefore, in making up the budget for the year, estimated not to exceed \$1,500 for this work.

At the close of the congress in our city October 21, the secretary, John T. Burns, and C. C. Williams, who was chosen by the congress to edit the book, asked our local printers to submit bids for the printing of same. In response to this request only two bids were received, both so far in excess of the estimated cost and the money available that it was necessary to secure bids from outside firms. This was done, and also two more local firms were urged to bid and did so, stating, however, that they were not in position to compete with Denver, as they did not have the machinery and equipment to handle a job of this kind.

Two of these statements were made to the chairman or myself, and one in writing and reads as follows: "From our conversation we know that this is not an favorable a price as you have received from Denver, and by way of explanation will say that if the book was printed on a press taking a larger form than we can accommodate and with an automatic feeding attachment, the price should be."

This statement is from the regular

of the largest and best-equipped plant in the city. I noticed, however, that notwithstanding this rather definite statement that Mr. Hoon of the Federated and Allied councils is quoted in The Gazette December 13, as saying:

"Mr. Lennox was mistaken when he said the printers have not the machinery to do the work. At least one shop and perhaps more has book binding machines, and is well fitted to do this job as any Denver firm."

It seems quite probable he refers to the plant whose name is quoted above, and it is purely a question of who knows best or speaks truest.

Six Bids Submitted.

Six bids were considered, three from Denver and three from Colorado Springs. All were adjusted to a uniform basis of 11,000 copies of \$20.00 each, giving the following results:

Local bid No. 1, \$1,851; Denver bid, \$1,365. Difference in favor of Denver, \$486.

Local bid No. 2, \$1,875.80; Denver bid, \$1,365. Difference in favor of Denver, \$510.90.

Local bid No. 3, \$1,882; Denver bid, \$1,368. Difference in favor of Denver, \$514.

At this point the bids were submitted to the local board of control, made up of our representative business and professional men, who, while strongly favoring local firms upon an equal or even a little higher basis on a job of this size, voted instructing the committee to place the order with the lower, satisfactorily outside firm unless the above difference could be reduced to within \$100 of the outside bid.

The chairman again took the matter up with two of our local firms with this end in view. The proprietor of one of these firms stated that he had in the meantime received a lower price on his stock paper and could reduce his bid \$55 thereby reducing his differential to \$44 above the Denver bid.

At this time or shortly thereafter, he stated he would contribute \$50 toward the "padding" the difference, and this chairman took the hint, up with the other printers urging a distribution of the work among the local printers or future contributions that the committee might want the conditions and keep the work at home.

Before going to Denver the day when

"padding" was made with this printer, and it was agreed that if he could arrange the writer with other firms, he would write the check, as at the \$1,882 bid between \$1,368 and \$1,365. Hearing nothing further, the writer was thus left with the Denver firm, told "as much as the differential.

Mr. Hoon and the Allied Printing trades council resolutions condemning the action of the committee in the board of control, desiring it to be in itself to the credit of the Chamber of Commerce.

Dr. Henry W. Hoagland and the Pikes Peak Union

first read copies of these resolutions to the chairman of the committee, A. W. H. Wilson, secretary of the Chamber of Commerce. The city council and the local press.

No Particulars Given.

The committee is further charged with taking statements from all the printing industry of this city and state so that a cursory investigation will disprove. No particular care, however, given Dr. H. Wilson, as the committee had no time to hear any, and Dr. H. Wilson, the chairman, was unable to give any information made by it.

The committee comprising the local board of control of the Dry Farming congress, did not do so at the hands of the chairman. They are known as builders and loyal to the organization, but as trustees of a public fund placed in their hands with at least an implied agreement to administer it faithfully, it is a very bad thing for a man to be compelled to pay out of his own funds

to any one, simply because he is doing business in Colorado Springs, without at least the consent of those contributing to the fund.

The noncompetitive policy advocated by S. A. Hoon, representing the Allied Printing Trades council, of paying \$3,000 in Colorado Springs for advertising worth only \$1,800 in Denver, may be followed by those spending their own money if they desire to do, but seems not to fit the case in hand, which is the spending of salesmen's trust funds to which the Allied Printing Trades council or the members, so far as our records show, had contributed nothing, and would again not be in position to consistently dictate as to its spending. Furthermore it may be seriously questioned whether those claimed to be represented by S. A. Hoon would adopt the noncompetitive method in their own business. I am creditably informed that the city directory referred to by the editor of the Labor News in a recent issue, in connection with this same job of printing, was bound in Denver and that the local printer having the contract gave his reason for so doing that the home binder asked him \$150 to do the work and he had it done in Denver for \$80.

If our local plants have not the machinery and equipment to handle this class of work upon a competitive basis or nearly so, it would seem that they have no sound basis for the charge made that they are treated unfairly if the work goes to those who have the machinery and can thereby make the price.

Denver Firm Made Money.

If, on the other hand, Mr. Hoon is right, and he seems to be cocksure of it, when he states that the local shops or some of them are as well equipped as any Denver shop to do this class of work, will he or some of his co-resolutionists explain why local firms did not meet Denver prices or nearly so on this job. The easy answer would be that Denver lost money, but I understand that the Denver firm say they made 13% per cent clear profit on the job and will prove it by their books and are hungry for another on the same basis.

A rather remarkable feature of this attack upon the committee and board of control is that it is made by the men and line of business receiving the largest direct financial benefit from the Dry Farming congress.

Our records show that close to \$5,000 was paid to the printers of our city for work done during the year, a large part of which was noncompetitive, while other lines receiving little or no direct benefit were satisfied to share in the general indirect benefits to be derived from the spread of the Dry Farming propaganda and general upbuilding of the state.

May it not be that those who have individually or collectively either inspired or framed these resolutions against the local board of control who during the past year, have spent time and money to bring and maintain the most worldwide gathering ever held in our city, thereby landing close to \$5,000 worth of work in our local printing plants presumably at a good profit, have missed the high water mark of courtesy in condemning instead of appreciating?

Be this as it may, the chairman

acted according to his conscience and with his best business judgment and believes the action will be appreciated by contributors to this trust fund and by unselfish, fair-minded citizens in general and therefore has no apologies at this time to offer for himself, the board of control or the committee.

Very respectfully submitted,

JOHN LENNOX,
Chairman of Local Board of Control
and Committee on Printing.

Local bid No. 1, \$1,851; Denver bid, \$1,365. Difference in favor of Denver, \$486.

COLORADO SPRINGS GAZETTE: FRIDAY, DECEMBER 22, 1911

LACK OF WORK OFTEN THE CAUSE OF POOR PITCHING

Many Boxmen Lose Effectiveness Because of Layoff Between Games

CHICAGO, Dec. 21.—Everywhere one hears the question, "What's the matter with the pitchers?" This applies to the general run of slabmen, for there are individual pitchers with whom there is nothing in particular the matter. These individuals are fewer than usual this year, and some of them have been unable to keep up consistent work.

Many explanations of the waywardness of pitchers have been exploited, the most general excuse being that in some mysterious way the new ball affects to a sensible reason why the new ball should make any difference. That is it necessary to wind the yarn tighter about the core, consequently the cover is sewed on more tightly and does not give the pitcher's fingers as firm a grip as formerly. If that is true, how is it that the few successful pitchers are not similarly affected?

The real reason probably is the growing size of pitching staffs. That naturally makes less work for the individual men on each staff, and lack of work is bound to affect the control and the endurance of any athlete. With eight or 10 pitchers at his disposal, a manager sometimes will not call upon a pitcher for a whole month, and then put him into a tight hole as likely as not. Some pitchers work so seldom that regular patrons of the game do not know them by sight.

In these modern days of strenuously it is necessary, of course, to be well protected in the pitching department against accident or illness, but most managers or club owners carry this too far. Nowadays ball players, as a rule, are such pampered pets that they dislike to work outside the limelight, and the practice indulged in, except in the presence of a crowd, is dull work usually of benefit only when players are constantly under the whip.

More work is a cure worth trying. It ought to be possible for a good manager to select four pitchers after three weeks or a month he can rely on work in turn or nearly so. That is the ideal after which the best managers strive, but sometimes they do not hold to their system with enough consistency to get the best results. It might be necessary to lose a game or two which possibly could be won by emergency methods, but in the long run the pitchers would profit by more work and less layoff.

It is natural or other causes will affect the rotation of pitchers, but nothing else ought to. When it is necessary to replace one of the first

RIVAL LEAGUE IS ORGANIZED

STAGG AFTER DOPE ON PROFESSIONALS

CHICAGO, Dec. 21.—To holdout of "C," granted them for athletic professionals by the University of Chicago, were mailed today the list of questions by which Coach Stagg hopes to learn alumnus' opinions on professionalism in college athletics.

The letters sent to 400 men, ask if the recipient violated the rules against marketing his knowledge or skill in athletics.

Opinions are sought on amateur baseball; means of preventing professionals in other sports; offenses by students before they matriculate at the university; preservation of the amateur rules and the abolition of inter-collegiate baseball in favor of intramural games between classes or groups of students.

NEWS AND REVIEWS FOR SPORTSMEN

STILL THE "PEERLESS MATTY"

Examination of the records is not needed to show that Christy Mathewson is the greatest pitcher of the day. At present Matty is the dean of National league boxmen. Without taking any credit from Cy Young, the assertion that "Big Ed" is king of them all would not fit without foundation. A comparison of the records for the past 10 years of their respective careers shows that Mathewson won 262 games and lost 129, while Young won 265 and lost 146. Matty's average was .686 and Young's .647.

string, the pitchers on the second string ought to be ready, so that any one of them can be promoted temporarily to the first quartet and take his regular turn. How to keep the slabmen who are on the bench in shape for immediate duty is a hard problem to solve, but it can be partially worked out by making the substitute pitchers do all the work in batting practice in the morning and in advance of each game.

At present this batting practice is perfunctory, both for pitchers and batters. The pitcher delivers nothing but straight balls, occasionally varying his speed in an attempt to help the batsman's eye. No effort is made to curve the ball or to put any "stuff" on them. Occasionally an ambitious youngster will try something of the sort and get a quick calldown from the veteran batsman whom he is facing.

The batters do not want to be kept guessing as to what is being pitched. They say they have enough of that to do in the games, and take enough chances of getting hit when the bat is on, without undergoing the same risks in practice. The man at bat wants to hit the ball, and hit it squarely. They like to get their hits in practice almost as well as in a game, particularly if there is a crowd watching them. This system is all wrong. The batsman would get far better practice if he were compelled to match his wits against a pitcher's practice. And the substitute pitchers would profit because it would help them keep control of their curves and at the same time give them practice in studying how to fool a batsman, even if a friendly one.

The frequency with which pitchers are changed during games also militates against their getting regular work and enough of it. Often a man is yanked out of a game when he is pitching steadily and effectively, merely to let a pinch hitter replace him at bat. Then a half-warmed-up pitcher is put in to work against an opponent who is thoroughly loosened up and going at top speed. There is no place for a pinch hitter until near the end of a game, unless the pitcher is going badly and has to be taken out on that account.

More work is a cure worth trying. It ought to be possible for a good manager to select four pitchers after three weeks or a month he can rely on work in turn or nearly so. That is the ideal after which the best managers strive, but sometimes they do not hold to their system with enough consistency to get the best results. It might be necessary to lose a game or two which possibly could be won by emergency methods, but in the long run the pitchers would profit by more work and less layoff.

It is natural or other causes will affect the rotation of pitchers, but nothing else ought to. When it is necessary to replace one of the first

pitchers, the manager should be sure to have a good one ready to go in.

pitchers, the manager should be

THE PASSING SHOW

CRIPPLE CREEK MINES

NEW YORK MARKET

CHICAGO MARKET

Special to The Gazette.

CRIPPLE CREEK. Dec. 21.—The Columbia Mining and Development company operating the Chicken Hawk mine on Guyot Hill has determined to sublease the upper levels in order to hasten development, while prospecting at the deeper levels of the main shaft, and has granted three subleases to local mining men. Marr and company, Stoup and associates and Malone and associates, have commenced work and two of the three leases are in ore of low milling grade. The Chicken Hawk shaft is now the deepest on the hill having recently been sunk to a depth of 900 feet.

El Paso Extension.

The St. Paul Mining and Development company operating the Camilla claim of the El Paso Extension Mining company, has sunk the shaft to a depth of 900 feet but will continue sinking until the 1,000-foot station is attained. After the station is cut, lateral work will commence at this depth. The leasing company has equipped the mine with a powerful mining plant and is expending a large sum on development work, the management believing the returns from deep mining will ensure profit. J. W. Morrison is in charge of the property.

Annual Assessment.

A score or more of miners from this city and a like number from the eastern and northern sections of the district are busily engaged in completion of the necessary assessment work on claims not yet patented.

There are more men at work this year on assessment work than at any time in the last four to five years, and this is believed due to the lower treatment rates on low grade ores.

Assessment notices are filed daily. Yesterday T. R. Courtney, the mining engineer in charge of the deep drainage tunnel filed notice of the annual work on the Dixie Girl lode, in this district. This claim is located near to the tunnel site south of Cripple Creek.

Assessment notices are filed daily on the Altman lode in this district, a fractional claim in the Bull Hill section was filed by Emma L. R. Dixon.

United States Patent.

United States patent for the Oregon and California lodes in the Cripple Creek district has issued to Robert E. Dolan, and has been filed for record with the county clerk.

By warranty mining deed Catherine B. Helen has conveyed to Fred Delcherman and Lloyd Douglas the Buckley and Wanigan lodes in this district. Consideration \$1.

By mining deed Hiram Frost of Colorado Springs has conveyed to H. E. Shoshard of this city the Bob Tail and Mud Hen lodes and the Burtington, Gold Queen and Homestake lodes in the Cripple Creek. The ex 44 section, the taxes due the county with interest thereon.

On Dec. 12, 1911, Fred has conveyed to the West & Blaney Gold Mining Co. to pay the Gold Bell lode, and to the smaller A. L. United Gold Mining Co. to pay the Bonanza lode in this area.
